Welcome to Testing

Dear Family:

You or your child will be undergoing various tests for either foods, inhalants or histamine sensitivities. In order to receive the most benefit from testing, your help and cooperation is essential. **Please do not wear cologne or anything with any scent including tobacco smoke or fabric softeners. You will be unable to enter the testing room if you have any fragrances on.** You will be required to take your child's or your pulse during the testing process. You will be asked to observed behavioral changes, changes in appearance, and any other symptoms you or your child may be experiencing. You will be given a timer to be set after each dose you or your child receives. Testing is done by intradermal injections. The timer will beep at five minute at which time you will need to take you or your child's pulse for 15 seconds and record it on the symptoms sheet then have your child sign his/her name or you will sign your name. If your child is too young to be able to write his/her name, you may have your child draw a picture. Have appropriate concentration work ready. Restart the timer for 5 minutes for concentration work. When the timer beeps after the five minutes have expired note any symptoms you observed or you or your child felt thought out the 10 minutes. Next please see the tester with your or your child's chart for evaluation and possible next injection. Your keeping accurate notes during the testing process will enable the tester to obtain the best results possible.

Our goal is to discover what sensitivities your child has and how these sensitivities affect your child's ability to function. We want the most for your child and you. For some children identifying theses sensitivities and treating them enables the child to concentrate more easily, ease some of their frustrations, and yours, and help life to be more enjoyable.

If you have any questions or concerns during this process, please feel at ease to discuss them with the tester and/or Dr. Block.

We look forward to having you and your child work with us to help make your testing experience a rewarding one.

YOU MUST SEE THAT YOU OR YOUR CHILD TAKE NO ANTIHISTAMINES OR HERBS, HOMEOPATHIC DRUGS FOR ALLERGIES FOR ONE WEEK OR VITAMIN C FOR 72 HOURS PRIOR TO THE TESTING APPOINTMENT. You will be here for several hours so come dressed in warm comfortable clothes. Room temperature stays at 70 degrees. Please write down all the foods you or your child has eaten that day. Make sure you or your child have eaten 4 or 5 of the foods that you eat on a regular basis. We will either be testing these foods or histamine, so if you have certain foods you want tested, please be sure to speak to the tester about this. You or your child will need to wear something with short sleeves. The testing will be done on their upper arm. The tester will be glad to teach you to take your or your child's pulse. Please bring some school work or age appropriate concentration work for you or your child to work on during testing so you can evaluate changes in concentration. Please bring a mid morning and /or mid afternoon protein snack (nuts, eggs, meat, cheese). We look forward to seeing you and your child in your testing department.

You will be here from 8:30am to 11:30am and then from 1:30pm to 4:00pm. Thank you.
