

The intention of The Block Center's 2-Day and 5-Day Programs is for them to be completed in two or five days. Local clients have the option of spreading out the programs over a longer period of time. However, the programs must be completed within 3 months of start time to be most effective.

I understand that the results of any medical program cannot be guaranteed, but The Block Center Programs are found to most effective when completed in their entirety and within 3 months of starting.

I, _____, parent or guardian of
_____, understand that I must complete
the ____ Day Program for _____
within 3 months of the starting date of _____.

Client Name

Parent or Guardian

New Texas Law

Services at The Block Center, Mary Ann Block, DO. PA, are Out-of-Network.

- A new patient office visit is **\$400.00**.
- Payment for services is required at time of service.
- A non-refundable deposit is required at the time an appointment is made.
- The deposit will be deducted from the Office Visit charge.

Any additional labs or other costs will be determined at the time of the office visit and must be given in writing before a test can be done. This could put a patient in danger if they cannot get a test performed until they have the price in writing, but it is now the Texas law.
